Introduction

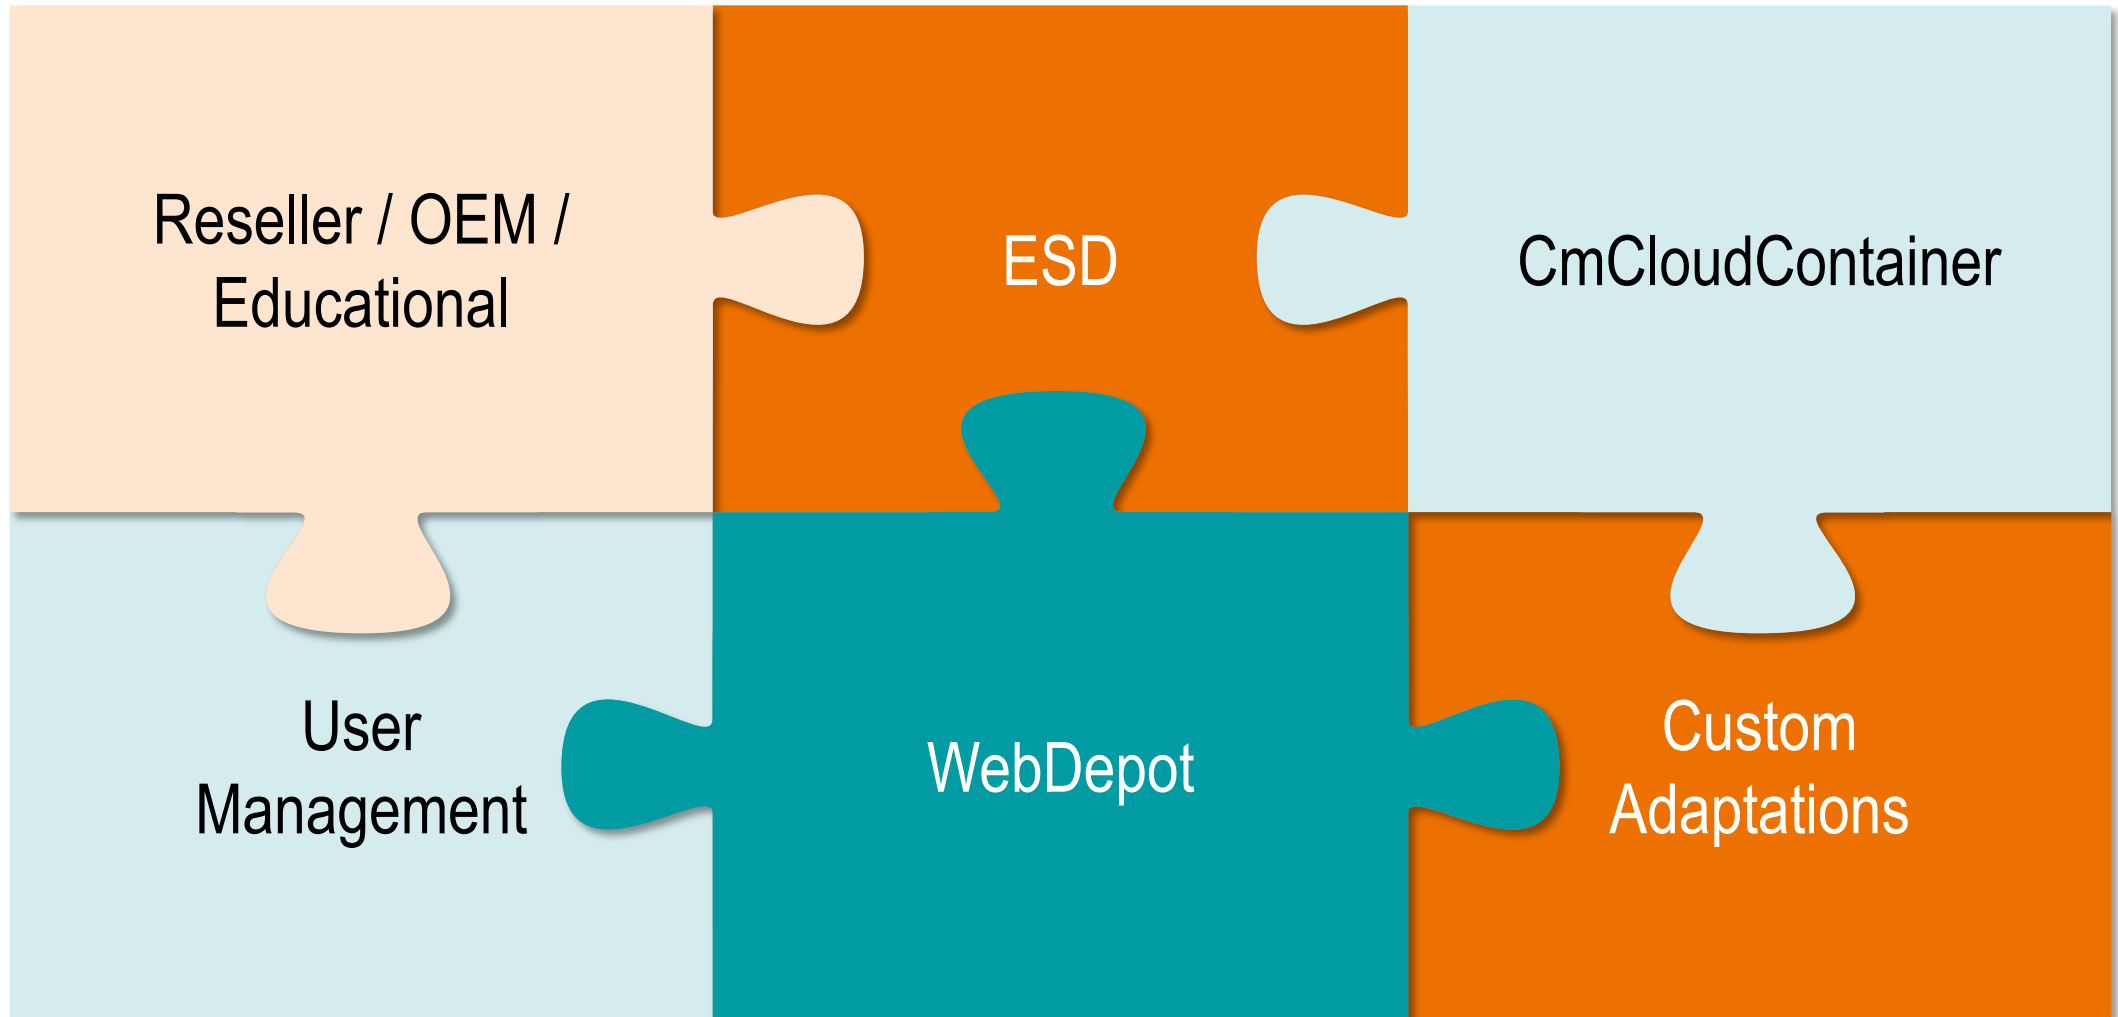

- **Connectors**
 - Rest-APIs for the ISV to create licenses from a 3rd party system

■ License Portal

- Rest-APIs and User Interfaces for users, enterprise users, and partners/resellers to manage (and create) their licenses
- Basic Configuration: WebDepot
- Additional features can be configured
- Professional Services can add new features relatively easily
- APIs: Gateways

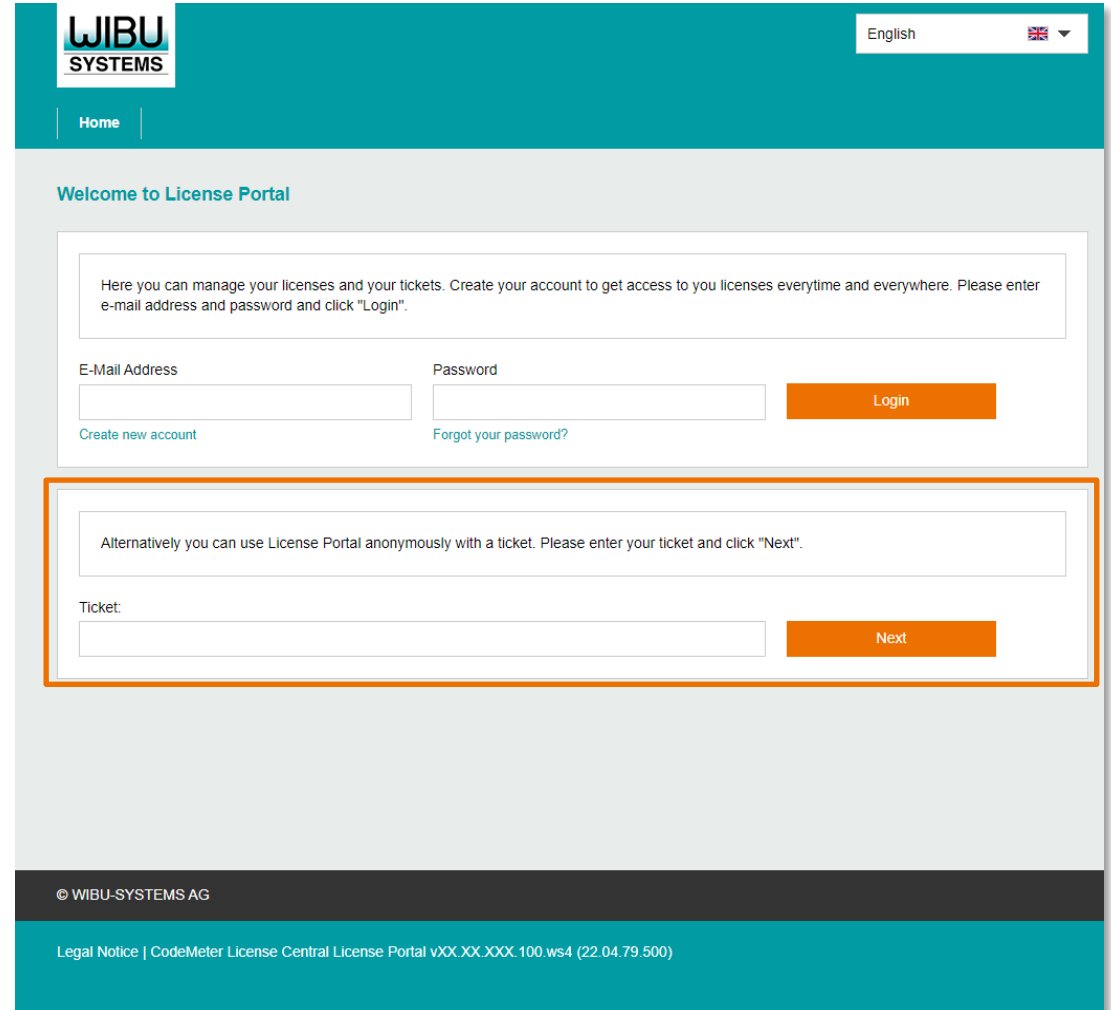

- **Software Activation Wizard**
 - Sample Code to use the Gateway-API
 - Available in different programming languages (C++, C#)
 - English only

Features

Simple User Management

- WebDepot
- Anonymous login with a ticket
- Easy usage
- Optional feature
 - On: No user registration needed
 - Off: Mandatory registration

The screenshot shows the WIBU License Portal interface. At the top, there is a header with the WIBU SYSTEMS logo and a language selector set to English. Below the header is a navigation bar with a 'Home' link. The main content area is titled 'Welcome to License Portal' and contains a text box explaining that users can manage licenses and tickets by creating an account. Below this are input fields for 'E-Mail Address' and 'Password', along with a 'Login' button. There are also links for 'Create new account' and 'Forgot your password?'. A second section, highlighted with an orange border, offers an alternative anonymous login method. It contains a text box stating 'Alternatively you can use License Portal anonymously with a ticket. Please enter your ticket and click "Next".' Below this is a 'Ticket:' input field and a 'Next' button. The footer contains the copyright notice '© WIBU-SYSTEMS AG' and a legal notice link.

- User registers himself
- Mail / Password
- Internal user management
- Optional features
 - Ticket as captcha
 - Double opt-in

Create License Portal Account

Your Data

E-Mail Address

Password

Password must be at least 8 characters and include in minimum 1 lowercase letters (a-z), 1 uppercase letters (A-Z), 1 numbers (0-9) and 0 special characters (~!@#%&*()-_={[]];:;<?/?).

Password

Re-enter Password

Security Check

To create your account you need a ticket as a legitimation.

Ticket

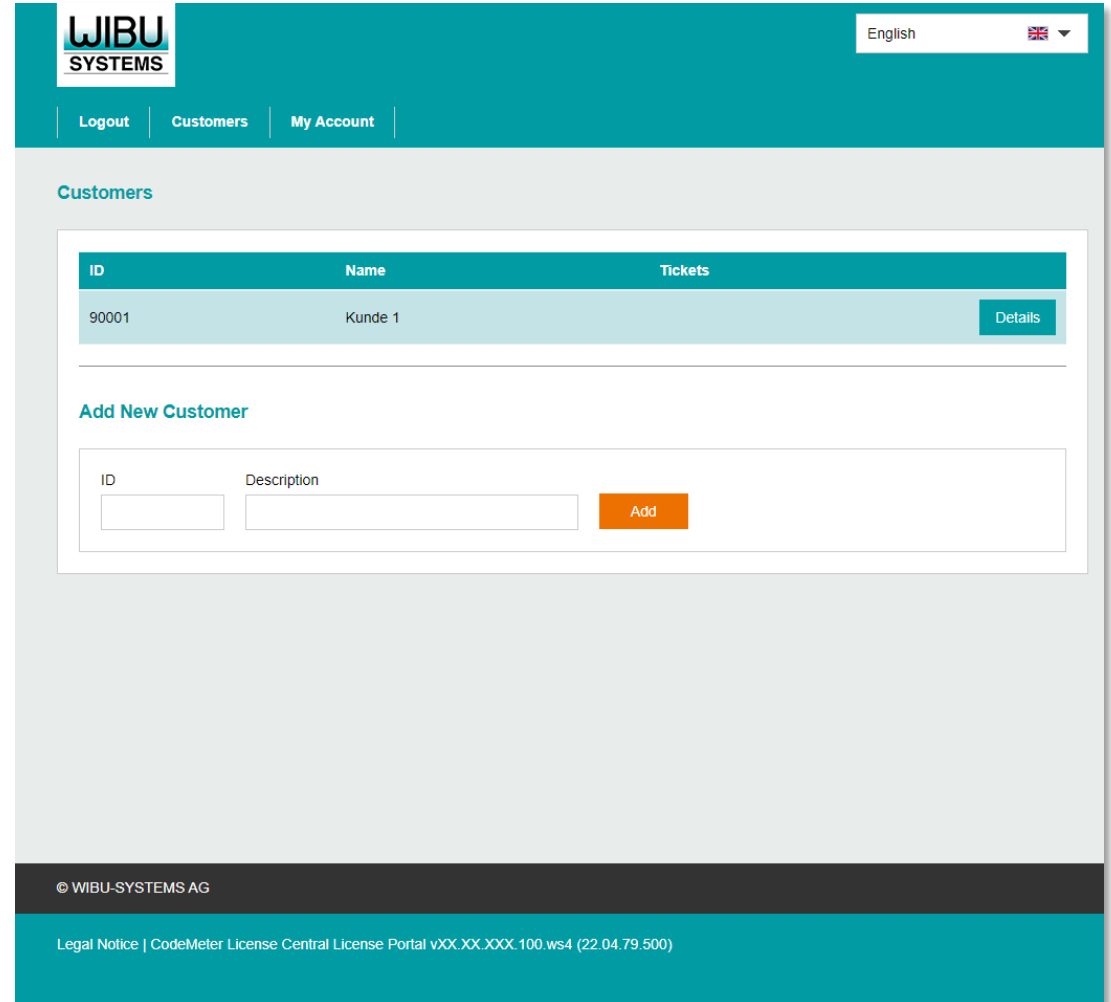

■ Ticket successfully checked.

I have read and agree with WIBU-SYSTEMS AG's [Privacy Policy](#).

- Optionally available
- Needs Professional Services for Integration
- OAuth2 or similar interfaces
- Internal user gets created automatically and assigned to a Single-Sign-On user

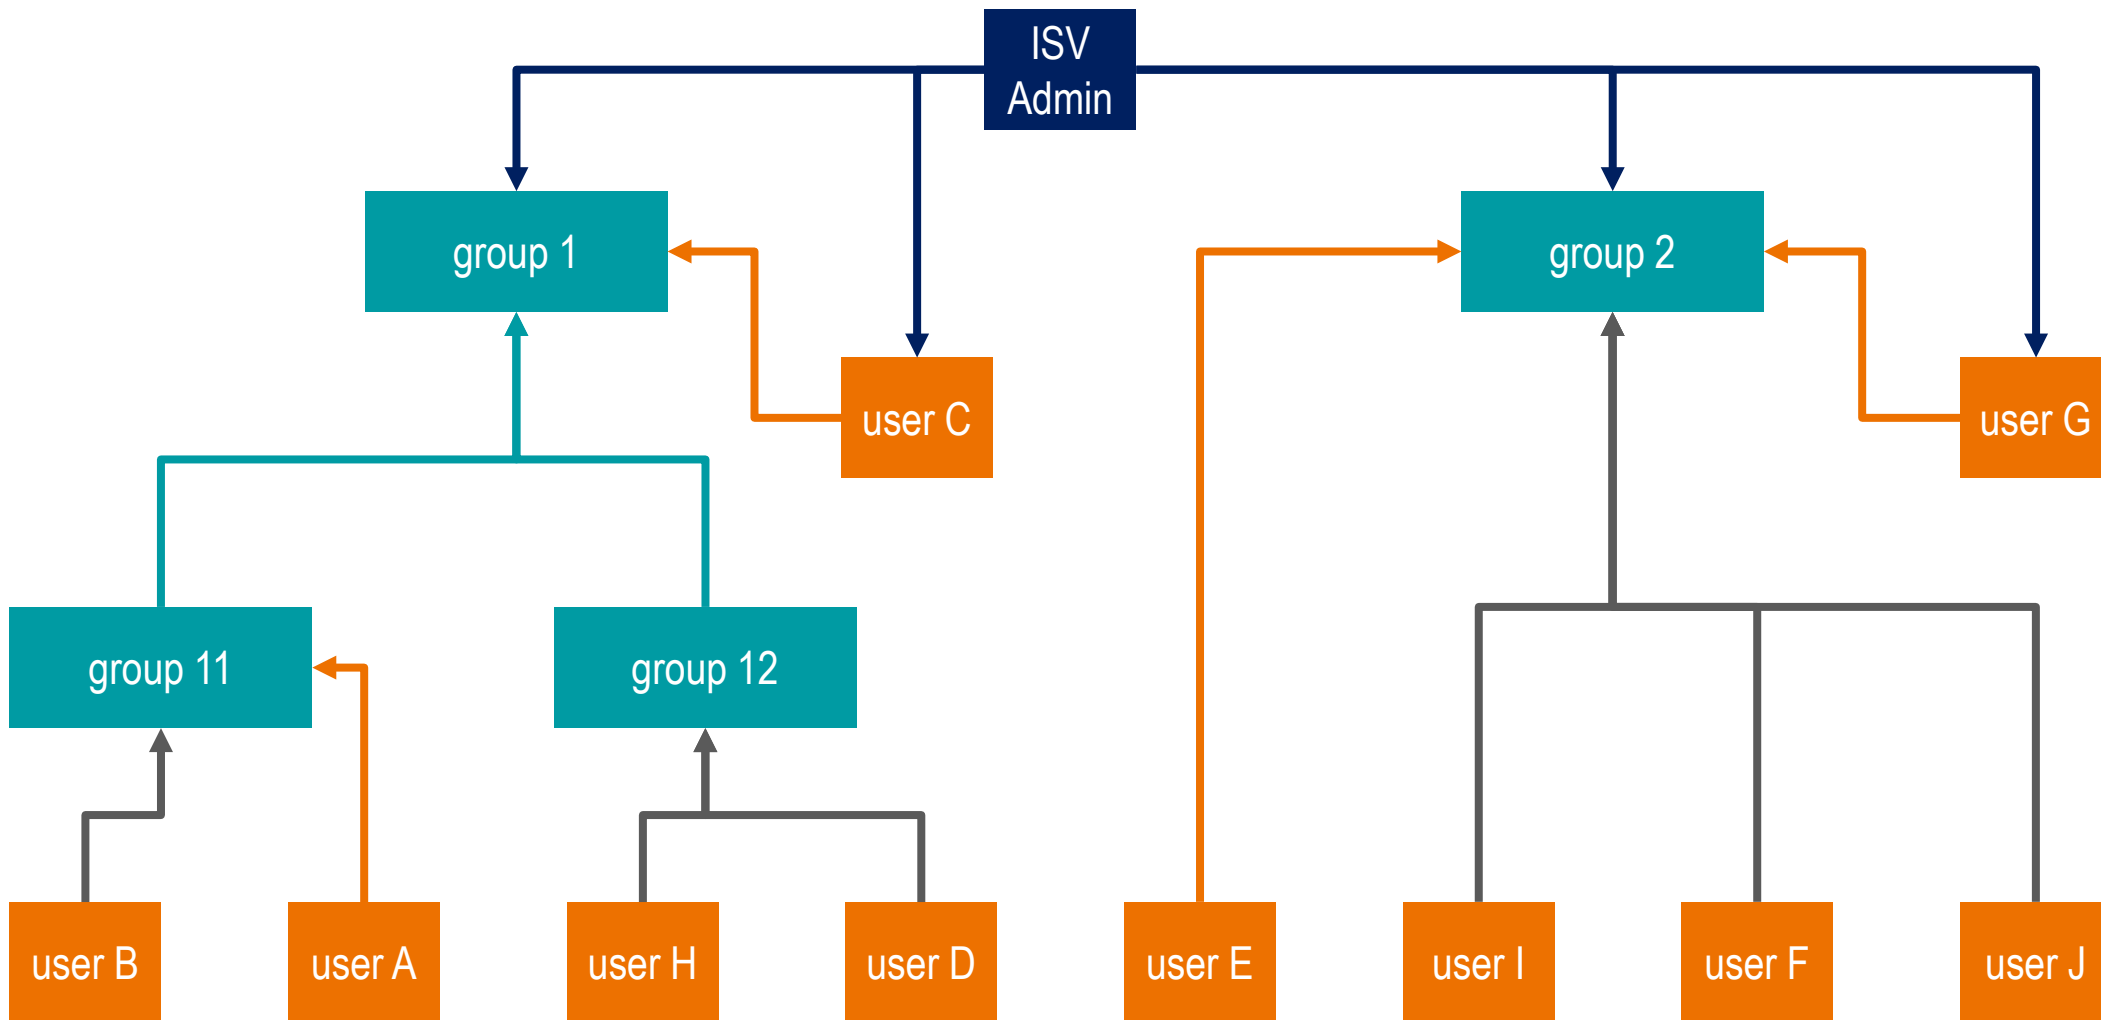

Multi-Level User Management

- Multi-level group/user concept
- Admin creates groups/users
- Admin assigns/removes users to/from groups
- Admin assigns/removes tickets to/from groups/users
- Sample groups
 - Companies, divisions, subsidiaries, universities, ...

The screenshot displays the 'Customers' management interface. At the top, there is a header with the 'WIBU SYSTEMS' logo, a language dropdown set to 'English', and navigation links for 'Logout', 'Customers', and 'My Account'. The main content area is titled 'Customers' and features a table with columns for 'ID', 'Name', and 'Tickets'. A single entry is shown with ID '90001' and Name 'Kunde 1', accompanied by a 'Details' button. Below the table, there is a section for 'Add New Customer' containing two input fields labeled 'ID' and 'Description', and an orange 'Add' button.
